Protect Privacy and Enforce Compliance

Safeguard student, staff, and faculty PII, and ensure your business rules are enforced.

Key Features

A Better User Experience

- **One-Stop Software Access**
Provide self-serve access to all software through one intuitive portal.
- **Personalized Presentation of Software**
Students see only the software they're eligible for based on configurable business rules.
- **Single Sign-On (SSO)**
Kivuto Cloud integrates with your SSO to give students, staff, and faculty effortless access.
- **Anytime, Anywhere Access**
Users can get the software they need when they need it from any compatible device.

Cost Management

- **Cost Recovery on Software**
Offset licensing expenses while providing the best prices for students by recovering costs through secure e-commerce.
- **Interdepartmental Billing**
Process interdepartmental billing and track chargebacks for accurate accounting.
- **Centralized Volume License Management**
Consolidate control of institutional licensing to improve license-purchase planning.
- **Improved Visibility**
Leverage on-demand reports for insights into product demand to inform procurement and avoid over-purchasing.

Streamlined Administration

- **Centralized License Management**
Efficiently manage and deliver all software licensed by your institution through one intuitive portal.
- **Automated Provisioning/Deprovisioning**
Automate the lifecycle management of software subscriptions and SaaS offerings to minimize back-end work.
- **Less Manual Effort**
Eliminate the untold hours of work involved in manual software distribution, account management, end-user support, and more.

About Kivuto

Since 1997, Kivuto has been transforming the way schools distribute digital resources to students and faculty.

World-class academic institutions like Harvard® and Yale®, software partners like Microsoft® and IBM®, and publishers like Pearson® and McGraw Hill® rely on Kivuto to ensure the secure and successful delivery of software, eBooks, and other digital assets.

Our product offerings have evolved to streamline and centralize every aspect of the management and distribution of academic digital resources while ensuring data privacy and security.

Privacy, Compliance, and Risk Management

- **Custom EULAs**
Implement customized business rules to govern software access and usage in accordance with your institution's requirements.
- **Permission-Based Data Sharing**
Protect users' privacy by ensuring that their consent is obtained and logged before any personal data is uploaded during the provisioning of cloud software.
- **Regulatory Compliance**
Ensure compliance with the GDPR, FERPA, PIPEDA, CCPA, CDPA, CPA, and COPA.
- **Fraud Prevention and Eligibility Verification**
Ensure that only eligible individuals can access the software your institution has paid to license in compliance with vendor terms and conditions.

“Without Kivuto’s solution, we would have an unfulfilled need. We wouldn’t have had a way to deliver home-use licenses to students – or it would have been a horribly inconvenient manual process.”
